

# Installation & De-installation Services

ultima

Do you have a store room overflowing with legacy IT? Do you need help to recycle or decommission it securely and compliantly? Ultima has partnered with N2S, specialists in large scale multi-site de-installations and decommissioning of IT equipment including desktops, screens, unified comms/telephony and managed print.

Our comprehensive solution ranges from configuration and installation of any new kit you may need - through to removal of surplus goods. By delivering services throughout the IT lifecycle, we provide you with complete peace of mind that you can track assets from installation to end-of-life.

## Tailored Service

We cover multi-site projects to out of hours work, and all that's inbetween. So whether you're looking to replace outdated IT systems, add additional technology to your infrastructure - or get your business off to the best possible start - we can help.

Our team of experts deliver a bespoke service, which can include:

- Workstation, printer and network refreshes
- VoIP migrations and mobile handset staging/deployment
- Technical logistics – delivery, dispatch and deploy
- WAN and server migrations
- Project delivery
- WiFi rollout

n2s

# Areas of Strength

N2S' proven process begins with a site survey and audit. By gaining an overview of your IT landscape, we can work with you to find out where your most pertinent challenges and greatest opportunities lie - enabling you to gain clear insight.

Trust us to complete your next IT installation or de-installation, and you'll enjoy a wealth of benefits:

- Efficiency
- Security
- Cost savings
- Clarity

## Recycling

In January 2014 the EU WEEE compliance scheme became law, meaning disposal of IT and telecoms equipment in the correct manner should be on your priority list.

Our hardware decommissioning service uses tracked vehicles to return equipment to headquarters for WEEE recycling or resale.

**Reduce your carbon footprint and become more environmentally friendly by recycling your equipment through us.**
