

Microsoft Enterprise Mobility Suite Ultima Engagements

Unsure How to Manage Your Mobile Enterprise?

Microsoft's cloud-first approach to managing a mobile enterprise is the fastest, most cost effective way to meet new business challenges and accommodate new devices, apps, and hires without worrying about scale, maintenance or updates. As a Microsoft Gold partner for Cloud Productivity Ultima are able to help you define, develop, implement and support an EMS strategy, incorporating Azure Active Directory, Intune and Rights Management.

Ultima is only one of a few certified Microsoft partners in the UK qualified to offer end-to-end IT services. Our continued focus is on the provision of quality and complementary technical and strategic services, delivered across each of the following mature practice areas.

Azure and Enterprise Mobility Suite Engagements

Mobility and BYOD Advisory Service - Based on Ultima's established and proven Advisory Services Framework this engagement utilises a systematic process for requirements definition and analysis, forming the basis of a comprehensive solutions matrix and recommendations based on industry best practice.

Microsoft Enterprise Mobility Deployment Planning Services - We are able to transact Microsoft's DPS tokens, available as part of Software Assurance benefits contained within an Enterprise Agreement, delivering vendor funded 1, 3, 5, 10 and 15 day engagements aimed at helping companies upgrade or migrate to Cloud or Hybrid EMS solutions.

Professional Services - Our experienced and accredited architects, consultants, engineers and project managers are able to complement your existing team, providing a diverse range of strategic and tactical consultancy services, enabling your business to deliver mobility projects faster and more effectively.

Furthermore our wider End User Computing practice offers a full ecosystem of Advisory and Consultancy services to ensure you have the support you need to deliver a comprehensive and tailored IT strategy, backed by the experience and expertise you would expect
